

Intern Private Equity (m/f/x), based in Munich

Who we are

EMH Partners (www.emh.com) is the next-generation investor by entrepreneurs for entrepreneurs and the leading minority investor for fast-growing medium-sized companies in the DACH-region. What all our portfolio companies have in common is a high degree of potential for digitization, expansion and revenue growth. The companies gain revenues of EUR 50 to 500 million and have proven, profitable business models.

In the role as an Intern, you will work as part of our Investment Team in order to identify, acquire and support innovative medium-sized companies in their growth path.

Key responsibilities and tasks

- Conduct and generate insights from industry studies and market analysis
- Undertake analysis of new investment opportunities, create business valuations, financial models and information memoranda
- Proactively support the investment professionals on transactions, including due diligence and preparation of investment papers
- Support the investment team in key value-creation initiatives for our portfolio companies

Personal skillset and competencies

- Strong analytical and financial skillset with first experience in financial modelling, balance sheet analysis, evaluation
- Deep understanding of business models and excellent business analysis skills
- High interpersonal competencies, well-developed communication skills and an ability to build engagement with stakeholders
- Strong affinity to new technologies and a passion to work with entrepreneurs
- High level of drive and commitment as well as a teamplayer mentality
- Very good MS Office skills (in particular Excel and PowerPoint)
- Fluency in German and English

Educational background

- Completed Bachelor's degree in business, economics, finance, information technology, engineering or natural sciences with excellent academic results, ideally advanced graduate degree in progress (M.Sc., MBA, etc.)
- First professional experience gained at a reputable investment bank, private equity or strategy consultancy firm
- Experience in the technology sector or with digitization initiatives is a plus
